AIMS AND SCOPE

The *International Journal of Wrestling Science* is the only journal dedicated to the study of the world's oldest sport. The International Journal of Wrestling Science is an Open Access international, peer-reviewed journal for professionals working in wrestling and wrestling sport science. Issues are published twice a year. Topics include:

- training science
- physiology
- psychology
- sports medicine
- biomechanics
- nutrition & weight management
- pedagogy
- history
- sociology
- sports management

The *International Journal of Wrestling Science* regularly features: Original Papers, Review Articles, Technique Analysis, Scoring Analysis, Case Studies/Profiles and Letters. The Journal publishes on behalf of the International Network of Wrestling Researchers and in association with the sport's international governing body, United World Wrestling (UWW), with its 180 national affiliates. The readership for this Journal is varied and ranges from academics to coaches and other professional practitioners from a range of disciplines and areas of application. The Journal also welcomes doctors and athletic trainers providing medical care to wrestlers, as well as anyone involved in Olympic sport, particularly combative and weight category sports. Papers covering every aspect of wrestling science can be submitted. Letters to the Editor will be accepted. Manuscripts must not have been submitted to another journal.

Peer Review Policy: All manuscript submissions are subject to initial appraisal by the Editor, and, if found suitable for further consideration, to peer review by independent, anonymous expert referees. All peer review is single blind and submission is online directly to the editor.

GUIDELINES FOR AUTHORS

Submitting Your Paper

Send your manuscript directly to the editor as a WORD document. Please note that *International Journal of Wrestling Science* uses Crossref™ to screen papers for unoriginal material. By submitting your paper to *International Journal of Wrestling Science* you are agreeing to this originality verification during the peer-review process.

Article Publishing Charge

The standard article publishing charge (APC) for this journal is US\$200. Depending on your location, these charges may be subject to local taxes. Waivers and discounts on the APC are available to support researchers in developing and emerging regions unable to pay this charge.

Manuscripts will be blindly reviewed by two reviewers. Acceptance for publication will be based on quality, originality and reliability of the presented material. Whenever necessary, accepted manuscripts are returned by e-mail to the authors for corrections. After making the corrections, the authors have to resend the manuscript, along with a new cover letter to the Editor with detailed information about the alterations for each one of the reviewers' comments.

AUTHOR CHECKLIST: WHAT TO INCLUDE

Authorship. Please include all authors' full names, affiliations, postal addresses, telephone numbers and email addresses on the cover page. Where available, please also include ORCIDiDs and social media handles (Facebook, Twitter or LinkedIn). One author will need to be identified as the corresponding author, with their email address normally displayed in the article PDF (depending on the journal) and the online article. Authors' affiliations are the affiliations where the research was conducted.

Each manuscript must be accompanied by a statement that it has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere.

Disclosure Statement. This is to acknowledge any financial interest or benefit that has arisen from the direct applications of your research. Please include a disclosure statement, using the subheading "Disclosure of interest." If you have no interests to declare, please state this (suggested wording: *The authors report no conflict of interest*). grant number(s) must be included in the declaration of interest statement.

Use of Third-Party Material in your Paper. As an author, you are required to secure permission if you want to reproduce any figure, table, or extract from the text of another source. This applies to direct reproduction as well as "derivative reproduction" (where you have created a new figure or table which derives substantially from a copyrighted source). If you wish to include any material in your paper for which you do not hold copyright, and which is not covered by this informal agreement, you will need to obtain written permission from the copyright owner prior to submission.

Complying with Ethics of Experimentation

Please ensure that all research reported in submitted papers has been conducted in an ethical and responsible manner, and is in full compliance with all relevant codes of experimentation and legislation. Authors who do not have formal ethics review committees should include a statement that their study follows the principles of the Declaration of Helsinki.

Consent. All authors are required to follow the ICMJE requirements on privacy and informed consent from study participants. Please confirm that any participant (or that person's parent or legal guardian) in any research, experiment, or clinical trial described in your paper has given written consent to the inclusion of material pertaining to themselves, that they acknowledge that they cannot be identified via the paper; and that you have fully anonymized them.

Health and Safety. Please confirm that all mandatory laboratory health and safety procedures have been complied with in the course of conducting any experimental work reported in your paper. Please include all relevant safety precautions; and cite any accepted standard or code of practice. When a product has not yet been approved by an appropriate regulatory body for the use described in your paper, please specify this, or that the product is still investigational.
